b... ABBA; Have they helped you when you needed some guidance? Or did you feel uncomfortable asking for help. If we failed you please suggest how we can improve on being more available to the junior members of our association.

c...Being a beef advocate is a complex role. Do you think ABBA is doing their part getting the word out in the industry enough about the importance of Brahman genetics in today's Beef Industry? If so how/why? If not suggest some things you think would be more helpful...

d...Why are you deserving of a Brahman Foundation Scholarship?
